PRODUCT NAME: MFA-047

1. Identification of the substance/preparation

Product Identification:

Trade Name: MFA-047
CAS No. N.A. - Intentional mixture

2. Components that may be considered hazardous

None notifiable

3. Hazards Identification

Not classified as hazardous according to the Chemicals (Hazard Information and Packaging for Supply) regulations.

4. First Aid Measures

Eye contact: Immediately flush with clean water/eye bath solution, holding eyelids apart, for 10 to 15 minutes. If irritation occurs seek medical attention.

Skin contact: No adverse effect expected. Remove any contaminated clothing. Wash affected area with soap and water. Launder clothing before re-use. See medical attention in the unlikely event of irritation occurring.

Ingestion: Wash out mouth with water. Give plenty of water to drink. If patient vomits turn to recovery position. Seek medical attention.
* Never give anything by mouth to an unconscious person.

Inhalation: No adverse effect expected. If discomfort is experienced remove to fresh air.

5. Fire Fighting Measures

Flammability: Non-flammable

Suitable Extinguishing Media: Foam, dry powder, water spray, carbon dioxide.

Thermal Decomposition Products: May emit noxious gases including oxides of carbon in a fire.

Special Equipment for Fire fighters: Full protective clothing/breathing apparatus.

6. Accidental Release Measures

Environmental Precautions: Do not allow entering drains or watercourses. Unauthorised discharge must be immediately alerted to appropriate regulatory body.

Personal Precautions: See section 8 for personal protective equipment. Ensure sufficient ventilation and prevent skin and eye contact.

Clean Up Procedure: Absorb onto sand or other absorbent material and dispose in accordance with local/national regulations.

7. HANDLING AND STORAGE

Handling: Avoid unnecessary contact. This product presents a low hazard, but exposure should be minimised by good industrial hygiene and safety procedures.

Storage: Store in closed containers between 5-25°C. Protect from frost.

8. Exposure Controls/Personal Protection

Eyes: Chemical safety goggles/face shield.

Skin: Chemical resistant gloves, standard issue work clothes, chemical resistant safety shoes or boots are recommended as a precautionary measure.

Inhalation: Protection not required under conditions of normal use. Ensure adequate work-place ventilation.

9. Physical and Chemical Properties

Physical state @ 25°C	Soft Paste
Colour	Off White
Odour	Very Mild, Characteristic
pH	Typically 6 – 7
Flammability	Non-flammable
Solubility in Water	Readily Dispersible
Viscosity	800 – 900 Poise overnight test
BDS	22 – 24%

10. Stability and Reactivity

Stable under conditions of normal use.

11. Toxicological Information

No available data on formulated product. Expected to have a low order of toxicity.

12. Ecological Information

No available data on formulated product.

13. Disposal Considerations

Via an authorised contractor to an approved waste disposal site. Treat container as for substance.

14. Transport Information

Not classified as hazardous for transport.

15. Regulatory Information

No labelling is required for this material by the Chemicals (Hazard Information and Packaging for Supply) regulations, but in accordance with good industrial hygiene and safety procedures we recommend the following safety phrases:

S24/25 - Avoid contact with skin and eyes

S36/37/39 - Wear suitable protective clothing, gloves and eye/face protection.

16. Other Information

The information on this Product Safety Data Sheet reflects the latest information and data that we have on hazards, properties, and handling of this product under the recommended conditions of use.
